I think we signed a deviation for both of those. You can check with Wally who should be there at City Hall.

Cliff;

I was reading the deviation approvals for GH 4. The City Engineer has approved them, but a couple, the over 500 foot long cul-de-sac and the two private roads over 300 feet also need FD approval. If I remember, that was given verbally at the TRC meeting, subject to the developer sprinkling the houses, which he agreed to, but I don't have any paper work supporting this – probably lost it in all the paper work. Could you please sent me a copy of the approvals?

Thanks,

Dick
